

JONATHAN RAY HENDRIX LÓPEZ

Backend Developer

(+34) 635-507-365 | jrhendrixdev@gmail.com | <https://jonathan-hendrix.dev> | Seville

SUMMARY

Backend Developer with expertise in Java/Spring Boot, PHP/Symfony, REST APIs, JWT, validation, testing, Docker, and CI/CD. I have designed and maintained efficient APIs utilizing DTOs, Managers, and Mappers, integrating over 50 endpoints in a professional setting with authentication and role management. I am proficient in SQL databases (MySQL, PostgreSQL) and reproducible Docker deployments. I am seeking a Backend or Full-Stack position in Seville or remotely, where I can leverage my practical experience in architecture, best practices, and quality-focused development.

SKILLS

Backend:

Java 17 • Spring Boot 3 • Hibernate • PHP 8 • Symfony 7 • RESTful APIs • JWT • Data Transfer Objects/Managers • PHPUnit • Docker

Databases: MySQL 8 • PostgreSQL • Doctrine ORM • JPA/Hibernate ORM

DevOps: GitHub Actions • Continuous Integration • Linux Ubuntu

Frontend: Angular • TypeScript • Tailwind CSS • HTML5 • CSS3

Tools: Git • GitHub • Postman • IntelliJ IDEA • PHPStorm • VS Code • DBBeaver • Jira • Slack • Figma

Methodologies: Kanban • Agile • Unit Testing • Integration Testing • Code Review

PROJECTS

Business First – Academic Platform (Symfony 7 + Angular + Docker)

<https://businessfirstacademy.net/>

Summary:

09/2025 - 11/2025

- I transitioned a legacy academic platform to a contemporary architecture utilizing Symfony 7, Angular, and Docker.
- I developed REST APIs utilizing DTOs, Managers, and Mappers, along with a Mailer, incorporating advanced validation, JWT, and two-factor authentication.
- I developed comprehensive modules for users, classes, enrollments, grades, payments, and Google OAuth.
- A fully functional and documented API, featuring reproducible deployments in Docker and configured CI/CD.

Bambina (CodeArts Practices) – Enterprise platform (Symfony 7, Angular, Docker)

<https://birrerialabambina.com/>

07/2025 - 09/2025

Summary:

- I created over 50 REST endpoints featuring JWT authentication, validation, and sophisticated exception handling.
- I documented endpoints, managed issues and pull requests, and conducted code reviews to ensure consistency and quality.
- I enhanced the maintainability of the backend and expedited the integration with the frontend (Angular + Tailwind), thereby reducing delivery times.

Task Manager – CRUD Task Manager (Spring Boot, Hibernate, and Thymeleaf)

<https://task-manager-api-4axd.onrender.com/tasks>

05/2025 - 05/2025

Summary

- I developed a CRUD application for task management utilizing Spring Boot 3, Hibernate, Thymeleaf, and MySQL.
- I developed the service layer, repository, and controller in accordance with best practices.
- I incorporated validation, streamlined DTOs, implemented error handling, and established a clean MVC structure.
- I developed a robust and readily scalable application.

EXPERIENCE

CodeArts Solutions

Backend Developer Intern

Remote

07/2025 - 09/2025

Summary:

- Implementation of over 50 REST endpoints in Symfony 7 utilizing JWT, DTOs/Managers, validation, and exception handling.
- Standardization of the Docker Compose environment (backend, database, Mailpit, frontend).
- Technical documentation, architectural handover, issue and pull request management, and code reviews.
- I engage in Kanban methodology, emphasizing continuous integration and collaboration with frontend technologies, specifically Angular and Tailwind.

Versar Global Solutions

Administrative Officer (ATOC Controller)

Naval Base Rota, Cádiz

05/2022 - Present

Summary:

- Resolution of an average of 15 technical incidents monthly, resulting in a 30% reduction in downtime.
- Oversight of more than 100 annual operations within a high-security military setting, executed without incident.
- Management of critical processes under Department of Defense Secret Clearance security authorization.
- Process optimization via digital tools, minimizing time and administrative errors.

EDUCATION

ILERNA Online

Associates degree in Web Application Development (DAW)

ILERNA Online

Associates degree in Administration and Finance

IES Mar de Cádiz

Associates degree in Multiplatform Application Development (DAM)

CERTIFICATIONS

Spring Boot 3, Spring 6 and Hibernate

Udemy, 2025

English Proficiency Level C2

Cambridge Institute, 2016
